> Subject: problems with food

>

> I am very concerned with the following:

> As a consumer of food I have no choices in what I am ingesting. I have no
> way of knowing how many chemicals are sprayed on my fruit or what kind of
> growth hormones and antibiotics I am ingesting when I eat meat or eggs. I
> have no way of knowing if the fruit I am eating has been grown with seeds
> that have been genetically altered. I have no way of knowing if the meat
> I am eating has been irradiated. All I am saying is that as a consumer I
> should have a choice.....all these products should be labeled
> appropriately. Please forward this email to the appropriate department.
